PROFILE

Full-Stack Engineer and Product Owner, motivated by learning new technologies and working on projects with a clear purpose. I want to actively contribute my engineering experience, curiosity and analytical approach as a technical Product Owner. Clear communication and good teamwork are particularly important to me.

EXPERIENCE

10/2025 - present
Full-Stack Engineer
PostFinance AG · Bern · ST machbar
Development of internal business applications with Angular and Java/Spring Boot. As Product Owner in ProcGen, I communicate with stakeholders and help connect business and technical perspectives. As a workplace trainer (Praxisbildnerin), I support apprentices and share knowledge through clear explanations and practical guidance.

08/2024 - 02/2025
Master's thesis
ETH Zurich, Laboratory for Nanometallurgy
Compared electrohydrodynamically printed nanoporous silver with vapour-deposited samples to investigate how their nanoscale structure affects surface-enhanced Raman spectroscopy (SERS), as reported in our co-authored publication.

02/2021 - 01/2025
Teaching Assistant / Head Teaching Assistant
ETH Zurich
Teaching in computer science and interdisciplinary courses taught me to explain complex topics clearly to people without a technical background. Head Teaching Assistant for Materials and Mechanics in Medicine (09/2024 - 01/2025).

EDUCATION

09/2022 - 02/2025
M.Sc. Biomedical Engineering
ETH Zurich · Specialisation in Bioimaging
Focus on applied machine learning for MRI and CT. Skills acquired: Python, PyTorch, TensorFlow, SciPy and MATLAB, alongside self-organisation.

09/2019 - 01/2023
B.Sc. Health Sciences and Technology
ETH Zurich
Focus on medical technology and exoskeletons.

PERSONAL PROJECT

notably.
An app in development for Business Analysts to support hypothesis-driven work: clearly formulating hypotheses, testing them systematically and documenting insights.

SKILLS & LANGUAGES

Development	Java, Spring Boot, Angular, Python, CI/CD, full-stack development
Agentic engineering	Agentic Software Development, Agent Engineering, Harness Engineering
AI tools	GitHub Copilot (professional); AWS Kiro, OpenAI Codex (personal projects)
Methods	Scrum, Product Ownership, knowledge sharing
Languages	German: native · English: C1/C2

CERTIFICATION & PUBLICATION

Professional Scrum Product Owner I (PSPO I) · Scrum.org, 07/2026

Co-author, 2025 · Porenta, Piazza & Spolenak · *Discover Nano*
Electrohydrodynamic redox printing vs. physical vapour deposition: a comparative study of nanoporous Ag morphology and SERS performance. doi:10.1186/s11671-025-04409-1

INTERESTS

Jogging, triathlon, flag football, reading (mainly fantasy), coding and hiking.
